Numb. 139.

THE South-Carolina Gazette.

Containing the freſheſt Advices Foreign and Domeſtick.

From Saturday, SEPTEMBER 18, to Saturday, SEPTEMBER 25, 1736.

By the Honourable
THOMAS BROUGHTON *Eſq;*
Lieutenant Governour and Commander in Chief in and over his Majeſty's Province of South-Carolina.

A Proclamation.

WHEREAS the Aſſembly ſtood adjourned to the 14th Inſtant, but by Reaſon of the Abſence of ſeveral Members of the Upper and Lower Houſe the publick Buſineſs could not be proceeded upon, and ſeveral Matters of great importance requiring the immediate Meeting of the General Aſſembly, I have thought it neceſſary for the publick Service with the Advice of his Majeſty's Honourable Council to prorogue this preſent Aſſembly untill Monday the 27th Inſtant, when the Attendance of the Members of both Houſes are deſired to meet at the uſual Place in *Charles-Town.*

Given under my Hand and the Great Seal of this His Majeſty's Province, this 18th Day of September 1736, *and in the Tenth Year of His Majeſty's Reign.*

GOD SAVE THE KING.

THOMAS BROUGHTON.

By order of his Honour the Lieutenant Governor
JOHN HAMMERTON *Secr.*

LONDON, July 3

On the 17th paſt the Czarina received the following Accounts from her Army in the Crimea: Count Munich having made himſelf Maſter of all the Lines of the Enemy, except of that of Precop, ſent on the 31ſt of May a Regiment of Foot, with ſome Artillery, to attack the 6th Fort which defended the Line; but upon the Approach of this Detachment the Janiſſaries run away, leaving behind them four Pieces of Cannon.

The 1ſt of June that General having made the neceſſary Diſpoſitions for attacking the Caſtle of Precop in two Places, the Turks ſent two Officers to demand a Capitulation, and marched out the ſame Day, to the Number of 2254 Men: Count Munich ſent immediately 800 Grenadiers to take Poſſeſſion of the Place, where 84 Pieces of Cannon were found, with a great Quantity of Proviſions and Ammunitions of War

On the 2d Te Deum was ſung, under a triple Diſcharge of the ſmall Arms; and the ſame Day Count Munich put ſome Troops into the Lines and Forts which where taken from the Enemy: and having detached a conſiderable Body towards the Dneiper, to obſerve the Motions of the Turks and Tartars, and to diſpute their Paſſage, in caſe they ſhould advance on the Side of Oczakoff, he marched with the reſt of the Army towards Bacciſary, the Capital of the Crimea.

The Report of a Peace being concluded with Kouli Kan and the Turks appears to be groundleſs, and only ſpread to amuſe the Populace at Conſtantinople.

The ſevere Cold which was lately felt in Spain, is ſucceeded by Weather ſo ſultry, that it occaſions a great Morality amongſt the Inhabitants.

We learn from Charleroy in Flanders, that ſo violent a Hurricane happened in the Neighbourhood of that City, that Trees were torn up by the Roots, and a great many Houſes and Numbers of Cattle ſwept away by the Floods, which, in the very Fields, were above ſeven Feet deep.

They write from Dreſden, that the Primate of Poland opened the General Dyet of that Kingdom on the 25th paſt, with a moſt eloquent and moving Speech

By a Letter from Hanover we hear, that his Majeſty has been indiſpoſed with a Cold, but is now better; that Orders have been given there for a Hunting Match to entertain the Duke of Saxe Gotha, who is expected there in few Days; and that, according to the Anſwers his Pruſſian Majeſty and other Northern Powers have given to the Propoſals made to them by the Maritime Powers, it is apprehended nothing of great Conſequence will be concluded this Summer, as was expected: However, it is aſſured that his Majeſty takes great Pains to terminate the Differences between the Crowns of Spain and Portugal, and to remove the Obſtacles that have hitherto prevented the Publication of the General Pacification.

On Monday laſt the Right Hon. the Earl of Waldegrave had a long Conference with his Eminency the Cardinal de Fleury and his Excellency M. de Chavigni, upon the preſent Criſis of Affairs in Europe; and on Tueſday his Lordſhip ſent an Expreſs to Hanover with the Reſults of it: M. de Chavigni in the Conference intimated, that his moſt Chriſtian Majeſty has it much at Heart to ſecure the Succeſſion of the Countries of Juliers and Bergues to the King of Pruſſia; being principally induced thereto by the Civilities his Pruſſian Majeſty ſhewed to King Staniſlaus.

His Catholick Majeſty has fixed a Fund of 4,000,000 of Pieces of Eight for building ſeveral Men of War in the Mediterranean and America, and 1,000,000 to build ſome Galleys to complete the Squadron he has at Carthagena.

On the 18th of June, N. S. Orders were iſſued out from the King of Spain's Council at Madrid, for all the Sea-ports belonging to the Crown of Spain, whether in Europe or America, to erect Mathematical Schools, in Order to

to instruct his Subjects in the Art of Navigation: And accordingly his Catholick Majesty has been pleased to assign proper Salaries for the Masters, he being resolved to encourage the said Science as the most necessary for Trade, and the Welfare of his People.

July 10 'Tis written from Petersburg of the 23d past that when the Ottoman Port had declared War against Russia, it was resolved in the Divan to put the Russian Minister under Arrest; but at the Instances of several Bashaws, that Resolution was altered, and that Minister is to be conducted to the Frontiers under a strong Guard.

'Tis advised from the Camp before Atoph, that the Garrison of that Place, spirited up by the Tears of the Women, had made a desperate Sally, but were repulsed with great Loss; whereas the Russians had on this Occasion, no more than 70 Men killed and wounded. The Turks sallied out several Times afterwards, but were always forced back with great Disadvantage, which has so weakned the Garrison, that considering the powerful Battery General Lacy has planted on flat-bottom Boats in the Black Sea, and the Reinforcements of 10,000 Men which he lately received, the Town must soon surrender.

The Grand Vizier is to march towards Bender with an Army of 60,000 Men, and the Russian Ambassador is to be escorted by 700 Men on his Return home.

The News we gave of the Spaniards having besieged the Portuguese Town and Fortress of Nova Collonia, on the North Side of the River of Plate, comes so confirmed as to leave no room to doubt the Truth thereof: By the Accounts received from thence at Lizbon the 22d *ult.* the Portuguese did not apprehend its being in any great Danger, the Besiegers having lost 200 Men and the Besieged not above Four, and several Ships, with Recruits, &c. having been sent to their Relief from Brazil.

Yesterday the most impudent and daring Insult was committed in Westminster-Hall, that ever was heard of in the Memory of Man: A large Parcel, in a brown Paper, was laid near the Side Bar of the Court of King's-Bench, to which was put a lighted Match, which burnt till it came to the Paper, wherein were enclosed several Chambers or Parcels of Gunpowder, which blew up, making several large Reports, that put the Courts of Justice, and all Westminster Hall into great Confusion; enclosed in the brown Paper were five Acts, of Parliament, great Part of which were burnt: and the Explosion dispersed a large Quantity of Printed Bills which were within the Acts to this Effect, viz. *To give Notice, that it being the last Day of Term, the five following Acts of Parliament* (which were impudently and treasonably called Libels) *would be burnt in* Westminster Hall, *between the Hours of Twelve and Two*, during the Sitting of the Courts of Justice; *also at the* Royal Exchange *and at* St Margaret's Hill, viz. *the Gin Act, the Mortmain Act* (which was idly and weakly call'd, the Act for taking away the little Remains of Charity) *the Westminster Act* (which was also scandalously called the Act to prevent Innocent Gentlemen's travelling armed) and *the Act for borrowing 600,000 l. on the sinking Fund*, which was called the *Sacred Fund*. One of these printed Bills being carried into the Court of King's Bench, it was referred to the Grand Jury then sitting; who found it a vile and scandalous Libel, published and dispersed by persons unknown —— If Acts of Parliament were suffered to be treated in so scandalous and contemptible a manner, there would soon be an End of all Government; but it's thought a Proclamation will be published, offering a considerable Reward for discovering so impudent and daring an Affront to the whole Legislature.

We are informed, by the Flanders Mail which arrived on Tuesday, that the Emperor has actually wrote with his own Hand to the Pope, on Account of the late Tumults at Rome, in which his Imperial Majesty offers not only his Mediation for putting an End to this troublesome Affair; and in case of Failure by that Means, to assist his Holiness to the utmost of his Power; with several other Expressions which give his Holiness new Life in his present declining State.

The Czarina having appointed a Day of Thanksgiving to be observed throughout the whole Empire, for the happy Success of her Arms against the Turks and Tartars, the necessary Orders have been according dispatched to the Governors and Commanders of the several Provinces, to cause the same to be kept with the greatest Strictness.

Count Munich continues his March into the Heart of Crim Tartary, without meeting with any Opposition; the Report of a Battle with the Tartars being contradicted, the Reduction of this State will be a great Advantage to Russia, as it will effectually prevent the Irruptions of the Tartars, or any Attempts of the Turks upon the Frontiers of that Empire. Crim Tartary is a Peninsula, situated in the Black Sea, its Circumference is about 160 Leagues, and is one of the fruittullest and best peopled Provinces of Asia.
